DUKE COMPANY
P. O. BOX 555
WEST POINT, MS 39773

**All users should complete a
Trapper Education Course
before using body traps.*

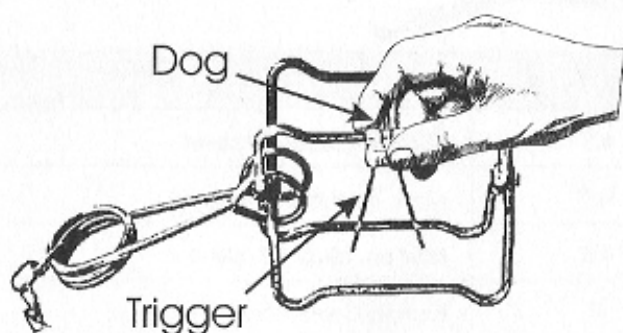

#110BT & #110BT MAG

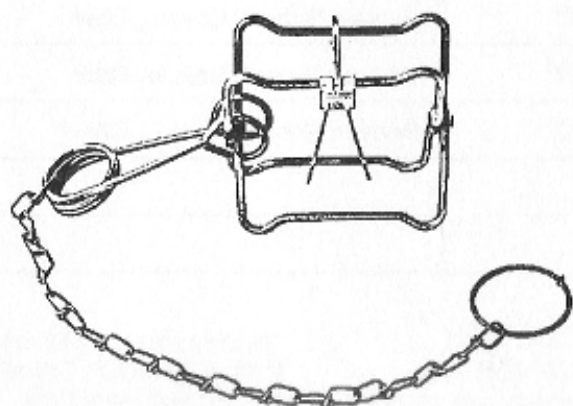

1. Extend spring away from the rotating jaws of the trap. Then with one hand, compress the spring.

2. While keeping the spring compressed, bring the trap jaws together.

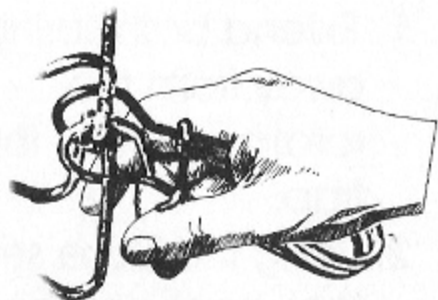

3. Place the dog into the notch of the trigger.

Caution: Trap is now fully set. Use extreme care when placing trap in position.

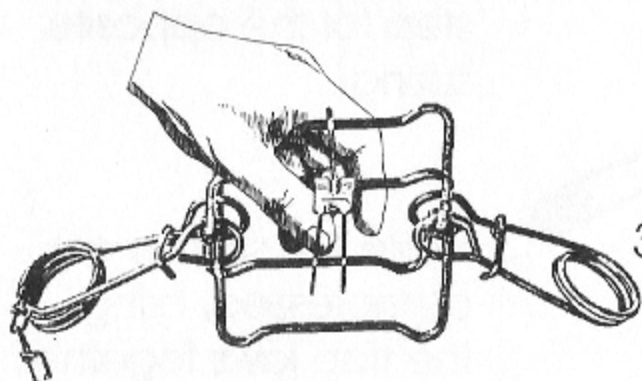

#120BT & #160BT

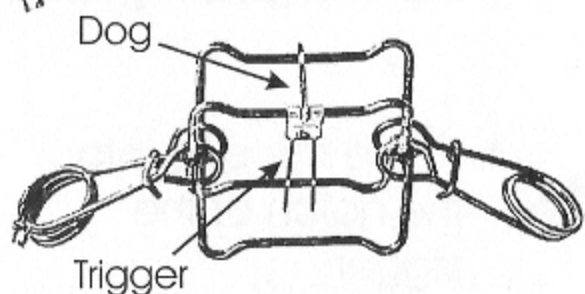

1. Extend both springs away from the rotating jaws of the trap.

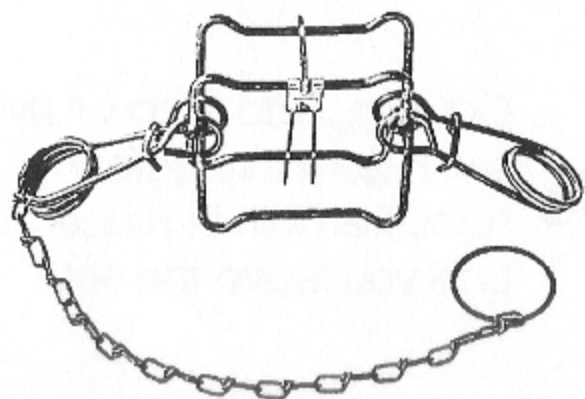

2. Grip and compress one spring and set safety hook to keep the spring compressed. Repeat step for the opposite spring.

3. While the springs are compressed, bring the trap jaws together.

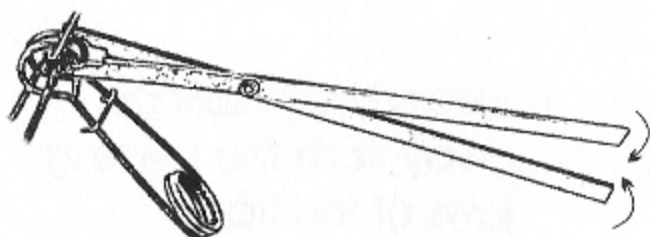

4. Place the dog into the notch of the trigger.

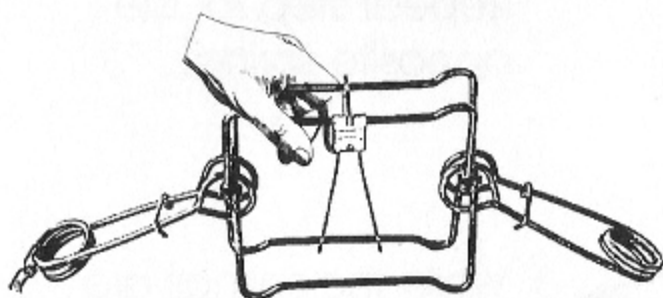

Caution: Trap is now fully set. Ensure that safety hooks remain in place until you leave the set.

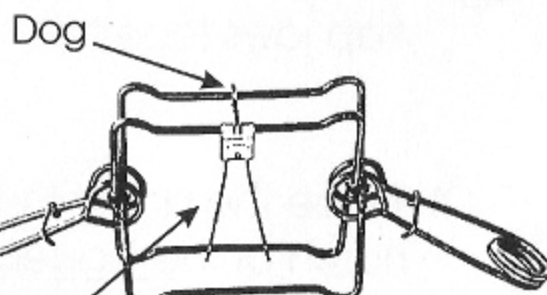

#220BT, #280BT, #330BT & #330BT MAG

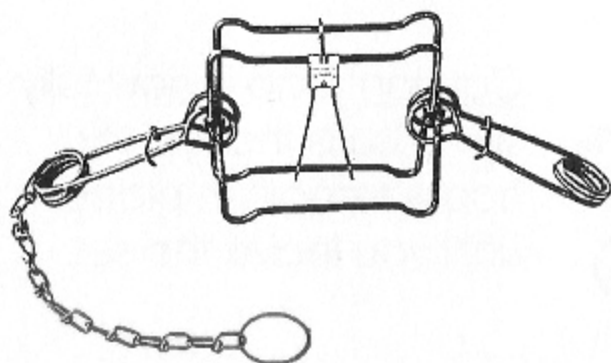

1. Extend both springs away from the rotating jaws of the trap.
2. Using the Duke set tool, hook notched ends into the spring eyes of one spring. Compress the spring and set safety hook to keep the spring compressed. Repeat step for the opposite spring.

3. While the springs are compressed, bring the trap jaws together.

4. Place the dog into the notch of the trigger.

Caution: Trap is now fully set. Ensure that safety hooks remain in place until you leave the set.
